The Health Science Of Pain Relief

Traumeel's

You want to enjoy...

Healthy Lifestyle

You value your health and you lead a lifestyle that respects your body. Eating well and regular exercise help pave the road to a healthy lifestyle. Sometimes, roads have their share of bumps. For the body, pain and injuries can be an unwelcome surprise. Fortunately, Traumeel® S can help.

* Studies on file.

Traumeel® S works at the source of the pain, ache or injury to moderate inflammation, relieve pain and accelerate the healing process. Traumeel® S is effective on muscle pain, joint pain, bruising and inflammation associated with injuries such as sprains and dislocations. Traumeel® S is a great alternative to conventional pain medication.

Pain

When you feel pain, your body is at work. The body activates its own inflammation regulation mechanism characterized by pain, heat, redness, swelling and loss of function. Inflammation is the result of the body reacting to injury by getting rid of damaged tissue and creating an ideal environment for repair. Without it, wound and muscle damage would never heal.

Designed with healing in mind

Traumeel® S is formulated with a precise combination of 14 botanical and mineral ingredients. Each provides a specific therapeutic action to support the different phases of the healing process.

Synergistic healing action of Traumeel® S ingredients

Improve circulation

- Aconitum napellus
- Hamamelis virginiana
- Millefolium
- Bellis perennis
- Belladonna
- Arnica montana

Pain relief

- Aconitum napellus
- Arnica montana
- Chamomilla
- Hypericum perforatum

Anti-infection

- Echinacea
- Echinacea purpurea
- Mercurius solubilis Hahnemanni
- Hepar sulfuris calcareum

Faster healing

- Calendula officinalis
- Arnica montana
- Echinacea purpurea
- Symphytum officinale

Proven effectiveness

Traumeel® S is supported by many clinical studies demonstrating its mechanism of action, clinical application, safety and effectiveness.

Safety information

Traumeel® S is well tolerated and does not cause adverse effects on the gastrointestinal, liver, renal or nervous systems. It also has no known medicinal interactions, so Traumeel® S can be safely used with other medicine.

Advanced application

While the topical and oral forms of Traumeel® S may be used alone quite effectively, certain more chronic conditions may benefit from combining both forms. This synergistic treatment helps accelerate the healing process, inside and out.
